

ENCROACHMENT PERMIT

**Mr. William D. Gardner
Chief Public Works Engineer
City of Riverside
3870 Mulberry Street
Riverside, California**

Riverside, California

8 July, 1972

In compliance with your request of 6 March, 1972
and subject to all the terms, conditions and restrictions written below or printed as general or special provisions on any part of this form

PERMISSION IS HEREBY GRANTED TO **City of Riverside** to construct a portion of **Central Avenue** within the District's R/W and permanent flooding easement of **Box Springs Dam**, as detailed on the attached drawing, subject to the following requirements:

1. All roadway fill within District's R/W and/or easement shall be compacted to 85% relative compaction.
2. 4,000 C.Y. of borrow shall be excavated from District's flooding easement above contour elevation 1104 as shown on drawing. Said borrow area shall be left in smooth uniform finished condition blending with the original ground. Minimum and maximum slopes of 1.5% and 3% shall be maintained as shown on the drawing.

This permit is to be strictly construed and no work other than that specifically mentioned above is authorized hereby. Performance of the work shall be deemed to be acceptance by the Permittee of all terms and conditions of this permit.

This permit shall be void unless work herein contemplated shall have been completed before 1 January, 1973.
