GENERAL NOTES

(1) It shall be the responsibility of the contractor to clear the right of way in accordance with the provisions of law as it affects each utility, including irrigation lines and appurtenances, and at no cost to the City.

(2) Construction shall be in accordance with the City of Riverside, Department of Public Works, Specific Items No. and and Standard Drawings.

(3) Prime coat, seal coat, and paint binder are required.

(4) Grading will require a permit under ordinance 3095 for a cut or fill exceeding 100 cubic yards, or a 4½ fill over one foot in depth.

(5) The subdivider shall arrange for a soil test to be made by Soils Engineer after the streets have been prepared to rough grade. Depth of base material and A.C. paving shall be determined by City of Riverside Design Standards and Test Procedures.

(6) Trim edge of existing pavement, where new paving joins existing pavement, to a clean, straight line. Construct matchup paving as shown and overlay paving as directed in the field to produce a smooth crown section.

(7) Contractor shall not place rock larger than 6" within 5' of proposed sewer as per City of Riverside Plan No. S- 2492

(8) Street name and Traffic control signs shall be furnished and installed by subdivider per City specifications and Standard Drawing No. 178 Case

(9) Engineer estimates 385 cu.yds. (+ or - approximately 5%) of earth to be removed from the site.

(10) Driveways to be constructed per std. 206 and located in the field at the time of const.

(11) If improvements are not installed per Plan R-1417 these plans will have to be revised prior to start of construction.
