CONSTRUCTION NOTES

(1) Construct Standard 200 Curb & Gutter - 6" C.F.

(3) Construct Standard 325 Curb Line Sidewalk

(4) Construct Standard 220 Cross Gutter. (Width shown on plans)

(5) Construct 2½" A.C. paving over 6" C.A.B. & A.C. paving over compacted native

(6) Construct 3" A.C. paving over 6" C.A.B. & A.C. paving over compacted native

(7) Construct Standard 304 Wheelchair Ramps

(8) Construct 2"x8" Redwood Header

GENERAL NOTES

1. Construction shall bein accordance with the Standard Specifications for Public Works construction 1976 Edition and per City of Riverside Standard Drawings.
2. All staggedalevations shall be staked in the field by the Engineer.
3. The Subdivider shall arrange for a Soils test to be made by a Soils Engineer after the streets have been exposed to rough grade. Depth of base material and A.C. pavement shall be determined by the City of Riverside design standards and soil parameters.
4. Location & size of driveway approaches (Std. 207) to be determined at the time of construction as approved by the Traffic Engineer.
5. Curb & Gutter to be Staked on 3' offset at 25' intervals.
6. Traffic control signs must be in place prior to opening streets to traffic.
7. Trim edge of existing pavement where new pavement joins to a smooth straight line. Construct match up paving as shown on the plans and overlay paving as directed in the field to provide a smooth surface. Engineer estimates overlay to be 51 Tons
8. See Electrical Plan prepared by the City of Riverside Public Utilities Department for number and location of required Street lights.
9. It shall be the responsibility of the contractor to clear the right of way in accordance with the provisions of law as it affects each utility including irrigation lines and appurtenances, and at no cost to the City.
10. 4"x4" Blockouts for mail boxes required in Curb Line Sidewalk
